The thirty-six cadets who attended camp training at Camp Hood Texas the summer of 1949. This was the third class from Prairie View A. & M. College to attend camp training. The training is a requirement for Senior R. O. T. C. Cadets who are in quest of appointment as reserve second lieutenants in the U. S. Army. Most of those (of the original two classes) who have finished are on active duty now.

The present staff for the Prairie View R. O. T. C. follows:
Lt. Col. Harry B. Reubel, Capt. Maxwell W. Vails, 1st Lt. Roy Burley, M/Sgt. Lucious Berringer, M/Sgt. Alphine H. Freeman, M/Sgt. John W. Stewart, Sgt. 1cl. Winthrop J. Boulware, Sgt. Mer-ton E. Brown, Sgt. Aaron V. Thomas, and Sgt. Leon H. O'Neal.

19 New Prairie View Students to Leave For School Sunday

(Reprint from the Galveston News)

Nineteen Central High School graduates will leave Galveston Sunday to enroll as freshmen at Prairie View A. & M. College, A. W. McDonald, manager of the extension school here, announced Friday.

In addition, 25 Central graduates will return to classes at Prairie View, bringing the total to 45, McDonald said.

The new enrollees are:
Sammie Lee Earles, Ida Jewel Amos, Mary Rubie Lewis, Evelyn Gamble, Eddie Mae Collins, Agnes Marie Senegal, Pauline Hightower, Majorie Woodard, Florence Johnson, Johnnie Mae Bailey, Johnnie Mae Bell, George John Howard, Charles D. Washington, Travis Dixon, Louis Mills, Hilbert Simion, Hestin Simion, Lofton Williams and Arthur Hill.

Returning students are:
Consuelle M. Johnson, Betty Winfield, Ida Mae Hollis, Mozell Lemons, Edna Brown, Ruth Sewell, Gloria V. Bennett, Marcelline M. Simion, Elizabeth Twine, Leola Mae Thompson, Frederica F. Dean, Carolyn Gee, Theresa Lee Davenport, Charlie Wyche, Sterling Patrick, Ray Don Dillon, Andrew Kelly, Clifford Pollard, Amos Lilly, Fred J. Miles, Elbert Smith, Joseph Walton, Austin Norman Jr., George Parker and Toby Stubblefield.

Prairie View's Instructional Staff Additions Announced

Replacements and additions to the Prairie View faculty to care for the record enrollment (6% higher than the peak year 1948-49) as announced by Dr. J. M. Drew, Dean of the College are:

Agriculture
Oliver Smith, B.S., M.S., Agronomy Research; Ernest T. Roberson, B.S., Agricultural Engineering; Robert L. Davis, B.S., M.S., Landscaping Architect.

DR. E. B. EVANS

ADDRESS DELIVERED DURING THE FACULTY ORIENTATION PROGRAM BY DR. E. B. EVANS, PRESIDENT

Dear Co-Workers:

We are here this morning to survey our educational tasks, to plan and initiate concerted action, and to fire ourselves with the necessary "esprit de corps" to do another fine job this year.

As I give you a warm welcome, I think of an athletic squad in its first meeting. The old players meet the new players with mingled curiosity and respect, with an inner competitive zeal under outwardly cooperating manners, and with the knowledge that whatever their individual abilities, qualities and past achievements are, the coach must somehow fashion both his "stars" and "unknowns" into a functioning team. As I give you a warm welcome, naturally I thank all of you

old employees for excellent cooperation last year. Directors and Deans, Heads of Departments and Staff members or secretary, instructor or maintenance worker—all of you ably served in your position and functioned on one of the mightiest teams in the proud history of this great institution. I salute you for service and urge you to serve on!

Likewise I extend my heart and hand to you employees who have been away studying and to you who join us for the first time. Because you have been carefully chosen, your background, training, experience and character will make easy your orientation and integration. Already you have caught the spirit of this institution and many activities have been planned to draw from you your best energies for our joint educational endeavor.

Ahead of us looms the goal of serving the students and citizens of the State at the points of their greatest needs and of training them to earn a respectable living and to live a respected life.

To realize that goal we shall have to do better educational planning, pool all educational resources and put forth more highly concentrated effort. For each one of us, then,

Faculty Orientation Held Sept. 7-10

The Faculty Orientation at Prairie View was both informational and inspirational according to faculty members who were present.

Mr. O. J. Baker, serving as morning chairman (Sept. 7) presented Dr. J. M. Drew, General Chairman who gave the following objectives of the conference:

1. To concentrate all organs of the institution on a common topic of discussion.
2. To bring to light some of the major problems that face Negroes in Texas and the Southwest.
3. To analyze the nature of these problems and to discuss the findings so that we may be conscious of their existence and register this consciousness in our instruction.
4. To so pool our thinking that we can come to a very definite agreement as to what should be the role of Prairie View in the solution of these problems.
5. To create an esprit de corps that inevitably results from a community of constructive thinking.

President E. B. Evans was the next speaker to appear. Said the state school head, "We are here this morning to survey our educational tasks, to plan and initiate concerted action, and to fire ourselves with the necessary 'esprit de corps' to do another fine job this year." He pointed out the fact that the employees had as a major goal the serving of the students and the citizens of Texas. He further stated that "the administration joins hands with faculty and other employees in total planning and in executing every detail; in utilizing every resource; and in enlisting the cooperation of every agency engaged in human betterment." Dr. Evans then gave ten objectives for the "educational team."

In closing he urged the faculty to "explore every phase of the topic and mobilize all institutional resources in training the finest teachers and artisans for the finest people you know—the people of this state and this nation!"

Dr. Hob Gray, Director of Placement, University of Texas gave the keynote address. He drew a verbal picture of a good teacher. Among the points necessary were: love for teaching, skill, happiness, seeker after truth, personal qualities as any dynamic-leader, and capacity for growth. He added that a teacher should be a hero to his students and should be capable of play.

The Prairie View Standard

Published monthly during the school year except July and August by Prairie View A. & M. College, Prairie View College Branch, Hempstead, Texas.

Entered as second-class matter, March 2, 1911, at the Postoffice at Prairie View A. & M. College Branch, Hempstead, Texas, under the act of March 3, 1879.

E. B. EVANS, Managing Editor
R. W. HILLIARD, Business Manager

Acceptance for mailing at special rates of postage provided for in section 104, Act of October 3, 1917; authorized July 18, 1918.

P. V. Professor Working On History Of the Institution

Dr G. R. Woolfolk is finding rather interesting facts about Prairie View as he checks material from various sources. A recent trip to Austin and to College Station added, among other items, the following facts:

The school's first name was Alta Vista College for Colored Youths. The first enrollment was eight young men, who left the school during cotton picking season, leaving Mr. Minor, who bore the title of First Teacher, without a student body. The first faculty and workers group seemed to have been three in number; the First Teacher, a laundry woman, and a man of all work. Professor Minor, the first head of the school, was from Mississippi. A heavy wind storm hit the campus in the 80's, and the dormitory for boys was prevented from destruction by a heavy ladder that stood at the back and against it; hence the boys' lives were saved.

Faculty Orientation Held, Sept. 7-10

(Continued from Page 1)
For purpose of discussion the faculty was divided into five groups: Group I. Purpose of Teacher Education at Prairie View; C. H. Nicholas, Chairman; C. A. Wood, Recorder; E. M. Norris, Highlighter; Dorothy I. Burdine, L. B. James and Lillie P. Burns, Consultants. Group II. Relationship Between General Education and Professional Courses. R. von Charlton, Chairman; H. T. Jones, Recorder; G. W. Reeves, Highlighter; J. M. Coruthers, Anne C. Preston and E. E. O'Banion, Consultants; Group III. Advisement, Selection, and Recruitment of Prospective Teachers. Blanche E. Johnson, Chairman; S. W. Davis, Recorder; J. E. Ellison, Highlighter; L. E. Scott, W. R. Banks, R. W. Hilliard, Consultants. Group IV. Program of Teacher Education for In-service Teachers. Zelia S. Coleman, Chairman; J. A. Randall, Recorder; J. L. Brown, Highlighter; Annie Pendergraft, T. L. Holley, W. D. Thompson and W. C. David, Consultants. Group V. Fundamental Factors in Thinking About Teacher Education. H. J. Kinchelov, Chair-

man; Florence E. Vaughn, Recorder, G. R. Woolfolk, Highlighter; O. J. Baker, Anne L. Campbell, and Delia M. Ellis, Consultants

The respective highlighters brought in reports at the Friday general assembly.

Dr. T. R. Solomon, Miss A. C. Preston, Mr. O. J. Thomas and Dr. J. L. Brown discussed the Gilmer-Aiken bill.

An afternoon was devoted to meeting with the respective divisional directors—Mr. C. L. Wilson for Mechanic Arts, Mr. G. L. Smith for Agriculture; Mrs. E. C. Gallo-way for Home Economics; Dr. T. P. Dooley for Arts and Sciences, and Dr. C. F. Calloway for Nursing Education.

Appointed Dean

Dr. J. M. Drew, newly appointed Dean of the College at Prairie View A. & M. College in Texas. He formerly served as an instructor, and as Director of Arts and Sciences Division. Effective Sept. 1, he began serving as Dean of the College at Prairie View. Dr. Drew has a rich and varied background.

As an undergraduate in Lincoln University in Missouri, he majored in mathematics and minored in physics. He received the Bachelor of Science degree from Lincoln University in June, 1929.

In the fall of 1929, Dr. Drew began his teaching career at Cape Girardeau, Missouri. There he taught science and mathematics. After seven years, he was elevated to the principalship, which position he held until his resignation in June, 1942 to complete the work for his doctorate at Harvard University.

During the period he was at Cape Girardeau, he attended summer school at Southern Illinois University and Kansas University, receiving the master's degree from Kansas University in 1939.

In 1937, he married Miss Alice A. Jones, of Edwardsville, Illinois.

In the summer of 1940, he entered Harvard University to begin

Orientation Address By Dr. E. B. Evans

(Continued from Page 1)

this year should be full with promise, rich with initiative and excitement, and unexcelled in performance and achievement.

The administration joins hands with faculty and other employees in total planning and in executing every detail, in utilizing every resource, and in enlisting the co-operation of every agency engaged in human betterment.

Additions in personnel have given various departments and divisions specialized training with newer techniques and unbounded zeal. At another meeting I shall refer to these "enlarged reservoirs" you place at the disposal of every student and citizen through your enlarged vision, training and social consciousness. I am convinced that better trained personnel with better resources should do a better job. The administration dedicates its administrative procedures to facilitate every educational activity in the total program. Especially do we emphasize such activities as will give our students complete mastery of the tools of learning, frequent use of those tools in mastering subject-matter and interrelationships, and discipline in the mental and moral qualities necessary for analyzing, applying and evaluating principles, theories and laws.

For the educational team we comprise let us agree on some more immediate and specific objectives:

1. Let us improve the care and extend the serviceability of the grounds, buildings, equipment and facilities of the institution as our working and living environment. A workshop or technical consultant may disclose ways to avoid waste and improve efficiency in use.
2. Let us study our respective jobs more closely, do them better, and see that they articulate with the other jobs being

work toward a doctorate and spent the summers of 1940, 1941, 1942, the year 1942-43, and the summer of 1943 there. He was awarded the degree of Doctor of Education in the spring of 1944.

Dean Drew joined the staff of the Department of Education at Prairie View A. & M. College in September 1943. In the fall of 1944, he was appointed to the position of Director of the Division of Arts and Sciences at Prairie View where he served through August 1949.

He is a member of the following professional organizations: Colored Teachers State Association of Texas, National Education Association, National Vocational Guidance Association, National Association of College Teachers of Education, and American Teachers Association.

done. Hold regular staff meetings, pool your knowledge and skill, and preserve your records and findings.

3. Let us improve teaching techniques not by introducing the latest fad but in discovering and applying the most effective methods of taking our students where they are and taking them where they should be one year hence. Provide for continuous criticism and evaluation of the process as well as the products of instruction.
4. Important to the improvement of techniques of teaching are the use of "living Situations" and "audio-visual aids." Let us use the laboratory of life as well as the specialized laboratories for giving students accurate familiarity with the problems they face and the various problem-solving techniques.
5. Let us take excellent care of all office, classroom and laboratory material in order to provide continuous, effective teaching. You know the delay and waste of intellectual resources if the delicate tools must be sent away to be repaired or replaced.
6. All of the efforts referred to require wholesome teacher-teacher relationships and teacher - pupil relationships. Where there are joint planning activities, teachers and students share responsibilities and cooperate better in carrying out planned activities. Good-will, wholesome attitudes, respect, toleration, ability to give and take criticism, passion for completeness, feeling of the worthwhileness of the project—these often characterize employee-student relationships where real planning, studying and teaching go on cooperatively. Let us plan and work together.
7. Let us extend wholesome relationships from classroom and laboratory to the campus, the dining room or snack-bar, the athletic field, the stage and platform, and to our residences. Let us create and develop a pattern of living in which cultural activities are accompanied by cleanliness of building and equipment.

This mental, moral and physical health of students, teachers and their families will bare a definite relationship to the respect we show for personality, ideals, and character during face-to-face and other relationships. The Administration favors constructive efforts to extend and improve human relations of this type even beyond the campus,

(Continued on Page 3)

Prairie View's Instructional Staff Additions Announced

(Continued from Page 1)
Arts and Sciences

Miss Iris A. Butler, A.B., M.A., French; Clarence W. Jackson, A.B., M.S., Education; Fred T. Johnson, B.S., M.S., Physical Education; Jas. S. Kennedy, A.B., M.A., English; Perry V. Knight, A.B., M.A. Economics and Business Administration; A. Kent Martin, B.S., M. Ed., Mathematics, Willie Mitchell, B.S., Biology; Bradley G. Moore, A.B., M.A., Band Director; Miss Velma Parks, A.B., English; Jas. E. Phillips, B.S., M.A., Social Science; Helen Pierson, A.B., Music; Major J. Powell, A.B., M. Ed., Physical Education; Gladys L. Sallee, B.S., M.A., Physical Education; Jessie I. Thomas, Jr., B.S., M.S., Health Education; Lloyd K. Williams, A.B., M.A., Mathematics; Theresa G. Wright, A.B., Music; Dean S. Yarborough, A.B., M.A., M.A., Ph.D., Sociology; Albert Calvin, B.S., M.A., Mathematics.

Mechanic Arts

Samuel R. Collins, B.S., Plumbing; Thos. A. Watkins, B.S., Machine Shop; Thos. J. Giles, B.S., Electrical Engineering; Lonnie O. Adkins, B.S., Drafting; Alvis A. Lee, Superintendent, Buildings and College Utilities.

Nursing Education

Miss Eva L. Mickens, B.S., Technician; Miss Eunice Snow and Miss Hortense Bryant, staff assistants.

The Mechanic Arts Department announced the following additions to the Office and Service Department—Miss Vera Pettie, B.S., Miss Edna M. Dorsey, B.S., Miss Dorothy A. Lee and Miss Mabel Turner, certificates.

Director of Arts and Sciences Division

Dr. T. P. Dooley, newly appointed Director of Arts and Sciences, Prairie View A. & M. College.

Dr. Dooley received his B.A. Degree from Morehouse College, his M.S. and Ph.D. from Iowa State

for good public relations are the result.

Your residences and the dormitories and those of our students will reflect the happiness you individually or collectively have. This community is our town—our city—our world and its streets, lights, plants, animals, and activities can be signed and regulated in the interest of health and happiness as nowhere else. Let us make this a model town which will inspire students and visitors. The Sunday School and Church and all the cultural activities of all the organizations can add to the zest of living and atmosphere of refinement.

8. Above all, render continuous, efficient, helpful service and maintain high and contagious enthusiasm in your work and play. Plan your work and play in such a way that you have some time to relax, to rest, to recuperate and to increase your reserve. Long, satisfactory service is satisfying service.

9. Finally, participate fully in all phases of our faculty orientation program. The theme for the discussion is "Teacher Education at Prairie View: Its Significance and Its Challenges." This institution is a Land Grant teacher-training institution. It supplies a constant stream of teachers for the state and the region.

From that task we can never retreat. Our obligation is to know the educational needs as well as occupational opportunities, interests, abilities and aptitudes of the youths of the state as well as its plant, mineral, animal, soils, climate and technological resources. The educational program of the State is in a state of accelerated evolution. The Gilmer-Aiken Bill provides a frame-work in which we can come closer to providing first-class schools, first-class principals, supervisors and nurses, and a first-class education for every boy and girl of the state than at any period in our history.

In that triangle the teacher is the key person. And it is through our Land-Grant teacher-training program that Prairie View can meet its challenge as an educational institution. To say this is not to discount any phase of our total program but to bring all of it to bear in making each teacher and professional graduate fully competent in a certain field to serve the boys and girls at the points of their greatest needs and to enable them to earn a respectable living and live a respected life. I urge you to explore every phase of this topic and mobilize all the institution's resources in training the finest teachers and artisans for the finest students, of the finest people you know—the people of this State and this nation!

College. He has done post doctorate work at the University of Detroit and Columbia University. Prior to coming to Prairie View in 1934 he taught at Arkansas State College. There he served as Head of the Department of Biology and was Acting Dean of the College for a part year.

At Prairie View he "grew up through the ranks" from instructor in Biology to Chairman of the Biology Department to Head of the Natural Science Department and now to Director of Arts and Sciences (65 teachers).

Dr. Dooley has served as Secretary of the Credit Union and is Superintendent of Sunday School. He is a family man, with a wife (the former Eula Mae Muckle-roy), a daughter, Lois Marie, and a son, Thomas P. (Billy) Jr.

JUST IN FUN

"What this country needs is more and better mouthtraps."

"Sleeping pills habit forming? Don't be silly. I've been taking them for years."

"There was never yet a philosopher that could endure the toothache patiently."

"A husband is a person who is spouse-broken."

"The most observant person was the historian who noticed Lady Godiva had a horse with her."

"A budget is a mathematical confirmation of your suspicions."

"Most fishermen are fable-minded."
